

BEHAVIOUR POLICY

Declaration

I have read, understand and agree to the Behaviour Policy for NESC Residential Trips:

- All participants must show respect to each other and their property. Bullying in whatever form will not be tolerated.
- Instructions given by leaders are for the wellbeing and safety of all involved in the event and should be obeyed at all times.
- All participants will be allocated shared rooms. No young person may enter a room that has not been allocated to them at any time. During the official bedtime period young people must remain in the room allocated to them. There are en-suite facilities. **No electronic devices allowed in the bedrooms at night.**
- No young person may consume or be in the possession of alcohol, cigarettes or illegal drugs throughout the duration of the expedition.
- All participants must remain within the physical boundaries given to them at all times.
- The centre rules must be obeyed at all times.
- If a young person is found to be in breach of the behaviour policy, leaders will discuss with them their choice of actions and support them in choosing alternative and more positive behaviour.
- If the young person continues to break the rules they will receive a verbal warning, in the unlikely event of this warning being ignored a formal warning will be issued. This warning will be recorded and the parent/carer informed.
- Any further rule breaking will be considered a serious breach of the rules. Any illegal acts or behaviour that endangers the safety of others will also be considered a serious breach of the rules.
- Any young person found guilty of a serious breach of the rules during the event may be sent home immediately. Their parent/carer will be contacted (regardless of time) to arrange the collection at personal cost to the young person and their parent/carer. Any illegal acts (such as vandalism, theft, sexual activity or use/possession illegal drugs) will be investigated and the appropriate authorities informed
